## TRAFFIC CONTROL PERMIT REQUIREMENTS:

Any traffic control permit issued may grant some or all of the following:

- i. Daytime off-peak setup from the hours of 8:30 am to 3:30 pm.
- ii. Nighttime off-peak setup in non-residential areas from the hours of 9:00 pm to 5:00 am.
- iii. A 24 hour setup if the work can be shown unable to be completed with either a daytime or nighttime off-peak setup.

### A. When to submit a Traffic Control Plan to the city:

The purpose of a traffic control plan is to encourage forethought as to the time of day, sequence of construction, degree of restriction and traffic control needed. The city based on field conditions at the time of work may modify an approved Traffic Control Plan. An approved Traffic Control Plan shall be on site at all times by the Contractor or Permittee. Failure to comply with this requirement may result in the issuance of a cease work order.

A Traffic Control Plan shall be required for all projects that:

- i. Divert, detour, or interrupt normal flow of vehicle and/or pedestrian traffic.
- ii. For shoulder closures when work will occur in the right of way within 20 feet of the edge of a traveled roadway.

### B. How to submit a Traffic Control Plan to the city:

Traffic Control Plans may range in complexity from use of typical illustrations in an approved traffic control manual to a detailed site plan showing signing, type of intersection, barricading, diversions, detours, and project phasing. In all cases, the required Traffic Control Plan shall satisfactorily address all construction restrictions, the requirements of the permit and these regulations.

- i. All traffic control plan submittals shall be submitted to the city by a company that possesses a valid traffic control permit.
- ii. The submittal may be by facsimile at phone number (623) 222-1703 or email at [traffic.control@surpriseaz.gov](mailto:traffic.control@surpriseaz.gov)
  - a) For restrictions the Traffic Control Plans (TCP) and notification must be submitted for review at least two working days (48 hours) prior to start of construction. Form TE-1 shall be completed in full and submitted with the TCP to begin review.
  - b) For full closures the TCP and notification must be submitted for review at least twenty (20) business days prior to the start of construction. Form TE-2 shall be completed in full and submitted with the TCP to begin review.
- iii. In no way will submission of a TCP guarantee approval for start of construction at the 48-hour/20 day mark. Construction is not authorized to proceed without the city's approval of the TCP and concurrence that construction can proceed with minimum public and traffic impact.

- iv. Once Form TE-1/TE-2 and TCP are approved, any change to the TCP or specific information approved in a previous submittal shall require a re-submittal of form TE-1/TE-2 and the TCP.
- v. All traffic control plans shall contain at least the following information clearly stated on every page of the plan:
  - a) Engineering permit number example, E09P-1234. This permit number will be supplied by the contractor.
  - b) Requested start and end date of traffic control setup.
  - c) Requested start and end time of traffic control setup.
  - d) Specific channeling device or barricade required.
  - e) Contractor contact information and any other pertinent information requested by the city.

**Four or fewer lanes**

#### **Number of Lanes to Maintain Open During Restriction**

## **SPECIAL EVENT LIQUOR LICENSE**

Allows a charitable, civic, fraternal, political or religious organization to sell and serve spirituous liquor for consumption only on the premises where the spirituous liquor is sold, and only for the period authorized on the license. This is a temporary license.

The applicant for a special event license must request a special event application from the Department and file the application with the governing body of the city or town, or Board of Supervisors of an unincorporated area of a county (where the special event is to take place) for approval or disapproval. Some local governing bodies may require approximately 60 days prior notice.

If the application is approved by the local authority, and the event meets the requirements for granting the license, the Director will issue a special event license to the qualifying organization.

Qualifying organizations will be granted a special event license for no more than ten (10) days in a calendar year. Events must be held on consecutive days and at the same location or additional licenses will be required. The license is automatically terminated upon closing of the last day of the event or the expiration of the license, whichever occurs first.

The qualified organization must receive at least twenty-five percent (25 %) of the gross revenues of the special event liquor sales.

A person selling spirituous liquor under a special event license must purchase the spirituous liquor from the holder of a license authorized to sell off-sale; except that, in the case of a non-profit organization which has obtained a special event license for the purpose of charitable fund raising activities, a person may receive the spirituous liquor from a wholesaler as a donation.

AVERAGE APPROVAL TIME: One (1) to seven (7) days.

Issued for no more than a cumulative total of ten (10) days in a calendar year. A special event may be held for more than one (1) day, but it must be held on consecutive days and at the same location or additional licenses will be required.
